

Towel Heater | 100 W | White

General information

Towel warmer to get towels comfortably warm and speed up the drying process. The towel warmer can also be used to warm coats before they are put on. A free-standing design makes it easy to move the warmer around, which is perfect for places where it can be cold and damp, such as mobile homes and holiday lodges. Moreover, the towel warmer is equipped with a power switch which has an IP22 protection rate, which allows for using it in damp areas such as bathrooms.

* Only suitable for grounded wall sockets.

Features

- Free-standing design which provides great flexibility
- Ideal for unheated or damp spaces, e.g. mobile homes or holiday lodges
- Comfortably heats up coats
- Ideal to enjoy warm towels after a shower or bath
- Dries damp garments faster
