

Digital Luggage Scale | 50 kg/110 lbs | Thermometer

General information

Compact luggage scales to prevent excess baggage fees at the airport. They display a warning if the weight exceeds the permitted 50 kg/110 lbs and feature a zero and tare function to reset the scales to 0. Additionally, they show the room temperature in degrees Celsius and Fahrenheit.

Features

- Measurements in kilograms and pounds
- Unit display in kilograms and pounds
- Room temperature
- Warning for max. weight
- Travel size dimensions
