10. Data transmission channel tuner	• Open the battery compartment. • Remove the batteries. • Set the data reception channel to the corresponding channel on the main unit. • Insert the batteries. • Close the battery compartment.

Safety

General safety
• Read the manual carefully before use. Keep the manual for future reference.
• The manufacturer is not liable for consequential damages or for damages to property or persons caused by non-observance of the safety instructions and improper use of the device.
• Only use the device for its intended purposes. Do not use the device for other purposes than described in the manual.
• Do not use the device if any part is damaged or defective. If the device is damaged or defective, replace the device immediately.

Battery safety
• Use only the batteries mentioned in the manual.
• Do not use old and new batteries together.
• Do not use batteries of different types or brands.
• Do not install batteries in reverse polarity.
• Do not short-circuit or disassemble the batteries.
• Do not expose the batteries to water.
• Do not expose the batteries to fire or excessive heat.
• Batteries are prone to leakage when fully discharged. To avoid damage to the product, remove the batteries when leaving the product unattended for longer periods of time.
• If liquid from the batteries comes into contact with skin or clothing, immediately rinse with fresh water.

Cleaning and maintenance

Warning!
• Do not use cleaning solvents or abrasives.
• Do not clean the inside of the device.
• Do not attempt to repair the device. If the device does not operate correctly, replace it with a new device.
• Do not immerse the device in water or other liquids.

• Clean the outside of the device using a soft, damp cloth.
