This easy to use Wi-Fi Smart Indoor Camera with magnetic base can be simply connected to your existing Wi-Fi network. The camera is ideal to monitor rooms of your house and record any sound or motion, whether you are at home or on the road. The Nedis SmartLife app notifies you in case of movement and noise, so you can intervene in time.

Full HD Resolution

You can keep an eye and react to everything you see in real time via the app. Thanks to the micro SD slot, you can store recordings on a micro SD card up to 128 GB (not included). It records in 3MP Full HD resolution (2304 x 1296 pixels) for complete clarity of the images captured. There is also an option to save the video material in our app via a cloud solution.
