

TV Mood Light LED Strips | RGB | Reduce Eye Strain | Dimmable | USB

General information

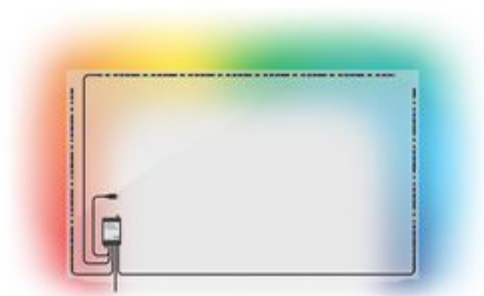

Multicolour mood light LED strips to paste on a TV to eliminate eye strain and improve the viewing experience. Watching TV in a dark room can cause eye strain as the eye muscles constantly contract and expand due to the large difference in luminance between the dark room and the TV screen. Regular room light, on the other side, reduces the viewing experience. The mood light solves all these problems while highlighting a television with a light that is dimmable, adjustable in colour and does not reflect in the screen. It consists of three dimmable light strips connected to one USB power cable which allows for a large mounting flexibility.

Features

- Reduces eye strain
- Easily installed
- USB powered
- 16 different colours to vary endlessly
- Remote control for more operating efficiency

Specifications

LED module:	5050
Cable length:	1.9 m
Accessories:	Self-Adhesive Tape
Accessories:	Remote Control
Accessories:	1x CR2032 3 V Battery
Input voltage:	5 VDC
Energy class:	A+
Number of LEDs:	16
Lamp type:	LED Strip
Dimmable:	Yes
Wattage:	2.4 W
Rated luminous flux:	96 lm
Cuttable:	Yes

Sales information

Order code:	TVML100RGB
Product description:	TV Mood Light LED Strips RGB Reduce Eye Strain Dimmable USB
Packaging:	Giftbox with eurolock
Brand name:	Nedis

Quantity	LxWxH (mm)	Weight
1	120x195x48	217 gr.
