

## Indoor HDTV Antenna | 0 - 25 km | Gain 28 dB | UHF | Grey

### General information

With this active Nedis® DVB-T/DVB-T2 in-house-antenna you can be reassured of a stable connection. This antenna receives signals from transmission towers within a radius of 25km from your house. To prevent interference from 4G / 5G signals, this antenna uses an LTE-700 filter. Within this 25km radius you are assured of a stable connection and crystal clear images of free-to-air channels and your favourite paid (subscribed) channels.

The design of this in-house-antenna is as well compact as modern and stylish with its soft grey fabric. This makes this antenna perfect for nearly every household. Even though it is not a big eye catcher, it is still beautiful with a luxurious look.

With the included manual, it becomes easy and fast to get this active in-house-antenna up and running.

### Features

- Active type antenna for inside use
- Compatible for receiving DVB-T/DVB-T2 signals
- Less interference from 4G / 5G signals because of the built-in LTE-7000 filter
- Stable connection/receiving when transmission tower stands within a 25km radius
- Compact, stylish, soft grey fabric design
- Extra-long antenna cable of 210 cm included
- Included manual for easy and fast installation
