

Electrical Hot Plate | 1000 W | 155 mm | Overheat protection

General information

This compact and portable electrical hot plate is ideal for taking away on holiday, using at home as an additional cooking option or simply to keep your food warm when entertaining.

Control the temperature with a great degree of accuracy with the thermostat control that offers an adjustable level of heat for your cooking.

An indicator light lets you know when your selected temperature has been reached and the powerful, 1000 W hot plate is equipped with overheat protection for your safety.

The 155 mm diameter of the cast iron plate transfers heat quickly for your convenience and the powder-coated steel housing is durable and easy to clean.

Features

- Powerful heating - 1000 W hot plate
- Can accommodate small to large pans - 155 mm diameter
- Built-in safety features - for overheat protection
- Compact and portable - for taking away with you and easy storage at home
