

Lead-Acid Battery Charger 3.8 A Universal

General information

3.8 A 6 V / 12 V 8-step intelligent battery charger suitable for vehicles. With constant current control / constant voltage control for LiFePO4 and lead acid batteries, MF, VRLA, AGM and GEL.

Features

- Short circuit protection
- Overload protection
- Wrong polarity protection
- Reverse battery protection
- Safety timer protection

Specifications

Output Current:	3.8 A
Connections:	Battery Clamps
Charger type:	Universal
Input voltage:	220-240 VAC
Safety functions:	Short-Circuit Protection
Safety functions:	Overheat Protection
Safety functions:	Reverse Battery Polarity Protection
Safety functions:	Safety Timer
Battery type:	Various Lead Acid
Voltage:	100...240 VAC/ 50...60 Hz
Power plug:	Euro / Type C (CEE 7/16)

Package contents

1x battery charger
1x fixed battery clamp 1x connector

Sales information

Order code: **HQ-CHAR-CAR13**
