

WiFi Smart Plug | Power Monitor | Schuko Type F | 10A

General information

Control many electrical appliances remotely simply by plugging them into this Wireless Smart Plug and connecting them to your smartphone or tablet via your Wi-Fi router. The handy power monitor allows you to see at a glance exactly how much power the appliance is using right now, or how much power it has been using over time.

Easy to set up

You don't need to be a technical genius or an electrician to control and automate your plugged-in appliances and devices. All you actually need is a Smart Plug and your Wi-Fi router. Our intuitive app will give you the ability to switch appliances on and off remotely and automatically. It can even work in connection with voice control systems such as Amazon Alexa or Google Home.

Super-slim – no more blocked sockets

These super-slim appliances have been designed to avoid that common problem of smart plugs blocking adjacent sockets – our plugs are both smart and slender for your convenience.

Schedule and pair

Set up time schedules for the plug to switch on appliances or connect them with others to create ambient scenes that can be activated with a single command or press of a button.

Monitor power usage

Identify at a glance any appliances that are using excessive power to ensure you live in a smart and an energy-efficient home.

About Nedis® SmartLife

Discover a wide and ever-expanding range of products – such as bulbs, switches, sockets, sensors, and cameras – that can all be controlled through an easy-to-use and intuitive app. With voice control features supported by Amazon Alexa and Google Home, and no need for anything more than your existing Wi-Fi network, this is the
