Tablet and Smartphone Mount | 4 - 12" | Full motion

General information

An elegant, portable 360° full-motion, multi-position mount for smartphones, tablets and e-readers sized 4" - 12" (10 - 30.5 cm).

The mount can be folded and carried anywhere to create your own mobile work and entertainment station.

On one end there's a multi-device clamp that can hold a 1 kg mobile device. On the other end is a multi-surface clamp that can be installed on various surfaces – vertical, horizontal, pole & handle – up to 2" (5 cm) thick.

The multi-device clamp opening range is 4.7" - 7.5" (12 cm - 19 cm). Its spring-clamp rotates 360° for portrait and landscape orientation.

Four round supports hold the smartphone diagonally or the tablet vertically. The back camera lens, charging socket and all the buttons are never blocked, however the device is held.

The mobile device can be positioned at any distance up to 6.7" (17 cm) from the surface connection point for taking pictures and convenient use.

The mount can be installed with the multi-surface clamp without drilling. Using a screw-adaptor it can be fixed to a wall/desk for extra stability.

It is also suitable for outdoor use thanks to its structure of stainless steel and reinforced plastic.
