

# Wire Stripper No. 5

WEICON has been developing and producing various types of cable stripper since 1967. These premium quality tools are TÜV-tested, carry the GS seal for verified safety, and were developed taking occupational safety and user-friendliness aspects into account. The WEICON range includes cable strippers, cable dismantling tools, wire strippers and various multifunctional tools for professional users.

## Description

The WEICON wire strippers allow flexible and solid conductors to be stripped easily, quickly and evenly. The wire strippers are ergonomically shaped and have an automatic scanner system to determine the cable diameter. This prevents damage to the inner conductor. The product family of wire strippers includes various types which are used in different fields and are tailored to the individual needs of the users. The pincers are used both in trades and in industry and are also suitable for private use.

The WEICON Wire Stripper No. 5 has an adjustable length stop from 5 – 12 mm. This allows all flexible and solid conductors of 0.2 – 6.0 mm<sup>2</sup> (24 – 10 AWG) to be stripped. The length stop can be removed if required. An easy-to-access side cutter is integrated into the tool and can be used up to a cable diameter of 2 mm. It also has exchangeable blades.

## Technical data

Cable type:	Fine-wired and solid conductors with PVC insulation
Field of use:	0.2 - 6.0 mm <sup>2</sup>
Inner blade:	Replaceable
Additional benefits:	Side cutter up to max. 2mm Ø
Approval/certificate:	Safety tested by TÜV NORD
Material:	Glass fibre reinforced polyamide
Length:	165 mm
Weight:	105 g
Accessories:	Replacement blade set, item no. 51100002

## Note

Working with WEICON Stripping tools is only permitted with potential free wires and conductions.
