

Handheld Vacuum Cleaner | Wet & Dry | 75 W | 11.1 V

General information

Bread crumbs after breakfast, muddy feet on the stairs, crisps on your couch and even spilled drinks... This Nedis® handheld vacuum cleaner gets the job done in the blink of an eye.

This handheld has two settings: an eco mode for 30 minutes of wireless hoovering and a maximum mode providing 20-minute sessions.

With its convenient size and supplied crevice nozzle, it is perfect for quick clean-ups, for cleaning your car, staircase and all those hard to reach places where you don't want to be dragging along a heavy hoover and without having to look for a power socket. Another big plus is the included wet suction nozzle to clean up after spilled drinks.

If you're done, you can place the vacuum cleaner back in its docking station, which is wall mountable but also designed to put down on the floor without screwing holes.

Features

- Dry and wet vacuuming - comes with wet suction nozzle
- Silent operation - noise level of only 75 dB (eco mode) or 80 dB in power mode
- Container capacity of 500 ml dust or 100 ml liquid - emptied with a single finger click
- Lightweight - easy to handle with only 0.82 kg
- 3600 Pa - 20 minutes of wireless operation in power mode
- 2000 Pa - 30 minutes of wireless operation in eco mode
- Wall-mounted docking station (incl. mounting materials) - also suitable to place on the floor without screwing holes
- Crevice tool - for hard-to-reach places
