

RF Smart Remote | 4 Channels

General information

Operate one or multiple lights or devices with this Nedis® remote control.

You can register multiple receivers per channel to switch multiple lights or devices on and off with the push of a button.

Channels

This switch remote has four transmission channels.

Nedis® RF smart receivers store up to 5 transmission codes, so that solutions can be created quickly and easily for every conceivable situation.

Grouped

In addition to the 4 individual channels, there is a group switch with which all channels can be switched on and off at once.

Compatibility and dimmable RF receivers

Supports all on/off and dimmable receivers and works with almost all existing 433.92 MHz systems, regardless of brand.

Features

- Easy installation
- Controls multiple lights/devices with one button
- Long battery life (battery included)
- Transmission range up to 30 metres
- Group-switch option
- Compatible with most existing 433.92 MHz systems regardless of brand
