

Fabric Wireless Charger | 2.0 A | 10 W | Grey

General information

Forget the cables and clutter - and the need to plug your phone in and out to charge it - this sleek, portable Nedis® wireless charger simply requires you to place your phone on it to start replenishing its power.

When you drop your phone on the charging plate an LED indicator shows you it has started charging.

The smooth fabric top layer protects your phone from scratches.

Features

- Fast charging technology* with a max. power output of 10 W
- Regular charging also supported with a power output of 5 W
- Portable design with small footprint to charge your smartphone anywhere
- Qi wireless charging: saves wear and tear on charging port and cables
- Universal use: compatible with all devices which support wireless charging
- No need to align your smartphone: just drop it on the charging station
- Including Micro USB cable to power the charger

*This charger is compatible with most smartphone brands that support fast wireless charging.

To ensure optimal performance, we advise a home charger of at least 9 V.
