

## Air Purifier | 45 m2 | 30 - 54 dB | Air Quality Indicator

### General information

Nothing beats living or working in a clean home or office. However, even when a room looks spot on, the air quality might not be as good; dust and dirt particles floating through the air can be so small that you can't actually see them. Our Nedis® air purifier with convenient timer offers the perfect solution.

This air purifier works with a HEPA filter, removing up to 99.99% of all particles of 0.3 micrometre or bigger, which includes pollen and dust mite. This means less dust and you will also suffer much less from your allergies. To maximise the effect, the air purifier also integrates an ionisator. This option ensures that dirt and dust particles fall to the floor instead of floating freely through the air that you breathe so you and your family can enjoy extra clean air while being indoors. Additionally, this air purifier also removes odours and bad smells.

The purifier also features an onboard dust sensor which indicates the air quality so you know which one (of four) fan speeds to select.

Or press auto mode for this device to select the appropriate setting.

There's also a quiet night mode, ensuring clean, pure air for a good night's rest. This makes this air purifier perfect for your bedroom, baby room or basically any room up till 45 m2.

### Features

- Touch control panel with blue LED indication
- Dust sensor - measures and indicates the air quality
- 4-level fan speed and auto mode, based on dust sensor outcome
- Quiet night mode - for a good night's rest in clear air
- Works with HEPA filter - removes 99.99% of all dust and dirt particles  $\geq 0.3 \mu\text{m}$
- Ionisator - for extra clean air
- Filter indicator - to replace the HEPA filter on time
- CADR: smoke 360 m3/h and a capacity of 45 m2
- 4 wheels - easy to move around
- Active carbon filter - removes odours
- Timer - set the purifier to switch off after 2, 4 or 8 hours
