

Wi-Fi Smart Tower Fan Heater | Thermostat | 1200 & 2000 W | Black

General information

This Nedis® Wi-Fi smart fan heater can be used on its own or in combination with your other Nedis SmartLife devices.

It can be operated using the physical buttons on top - or remotely through the Nedis SmartLife app - to set the temperature, heating power, horizontal pan or set it on a timer or a schedule.

By combining the app with your favourite voice assistant (Google Home or Amazon Alexa) you can even control it using voice commands.

All of this is possible without the need of an additional hub or gateway.

Features

- Set temperature using buttons on top, your Nedis® SmartLife app or by voice in combination with Google Home or Amazon Alexa
- This fan heater connects directly to your Wi-Fi so you can control it from anywhere in the world
- Simply set a timer or a schedule for automated heating
- The heater uses the full 2000 W to quickly heat up the room - and when approaching the target temperature it automatically lowers the heating power to 1200 W
- Activate the horizontal pan for optimized air flow throughout the room
- The small footprint of only \varnothing 19 cm makes this powerful heater suitable for small rooms
