

White Noise Sound Machine | 4 W | Up to 5 Hours Playtime | LED Light | Timer | Grey / White

General information

Enjoy better sleep, relaxation and focus with this Nedis® white noise sound machine. The relaxing white noise sounds, brain wave music and ASMR (Autonomous Sensory Meridian Response) music helps you sleep or relax more quickly.

It also helps you stay asleep longer by tune out the environmental noises that might wake you at night. Next to that it is also provides more focus when needed, for example when you are studying.

You have the choice to select 10 different natural white noise sounds which neutralise surroundings, 7 brainwave music sounds to stimulate the brain entering a specific state or 3 ASMR music sounds providing a calming pleasurable feeling.

The integrated dimmable LED light with warm white colour can be put on or off with the touch control button if needed. In addition you can also set the timer function on if you prefer.

The rechargeable built-in battery provides up to 5 hours usage or you can use it via mains power (adapter not included).

Features

- Better sleep and focus - with white noise sounds, brain wave music or ASMR (Autonomous Sensory Meridian Response) music options you can make your own selection before going to sleep or when you want to relax.
- 10 White noise sounds - for neutralising surroundings so that your brain will not be distracted and you can have full focus. You can select the following options: fans, waves, streams, rain, wind, summer night, frogs, waterfalls, heartbeats, thunder
- 7 Brainwave music sounds - to stimulate the brain into entering a specific state by using a pulsing sound
- 3 Autonomous sensory meridian response (ASMR) music sounds - provide a calming, pleasurable feeling
- 4 W peak power - providing sound to enjoy and relax with and set the volume to the right level to match your environment
