

Small-diameter Proximity Sensor

Ultra small size, but surprisingly easy installation!

- With the addition of M4, 6.5-dia. size, unshielded, pre-wired connector model, and connector model, a total of 104 model variations are available.
- Sensing distance is 1.5 times* longer than that of previous models, for easy sensor positioning adjustment.
- High-speed response frequency stably detects moving objects: 5 kHz max.
- Indicator lamps have been increased from the previous one lamp to four lamps, making lamp positioning easier.
- Special mounting brackets reduce time and efforts for installation.
- Protective Stainless-steel Spiral Tube against wire breakage is available (M4, M5 only).
- * When the 4-dia. shielded model is used.

For the most recent information on models that have been certified for safety standards, refer to your OMRON website.

Refer to Safety Precautions on page 10.

Features

Lineup of global small-diameter types (3 dia., 4 dia., 6.5 dia., M4, M5)

• A lineup of unshielded models for long distance sensing is also available. Stable long distance sensing performance enables worry-free use even when the work flow is unsteady.

Bright operation indicators make it easy to check operation status

• Four indictor lamps in a 360 degree layout can be easily seen.

High-speed response enables sharp detection timing

• 5 kHz response frequency max.

Protection circuits prevent failures due to wiring mistakes.

 Load short-circuit protection and output reverse polarity protection circuits are incorporated.

Environment friendly, low current consumption only 2/3 that of previous models

All have a current consumption of 10 mA max.

Protective Stainless-steel Spiral Tube against wire breakage is available

 Lineup of protective tubes for M4 and M5 sizes. Reduces wire breakage due to catching and shock.

E2E

Accessories (Sold separately)

Mounting Brackets

A Mounting Bracket is not provided with the Sensor. It must be ordered separately as required.

[Refer to *Dimensions* on page 15.]

| Appearance | Model | Quantity | Remarks |
|----------------|-----------|----------|---|
| Available soon | Y92E-SC03 | 1 | Mounting block for 3 dia., M3 × P0.5 screws: 2 pieces |
| Available soon | Y92E-SC04 | 1 | Mounting block for 4 dia., M3 × P0.5 screws: 2 pieces |
| Available soon | Y92E-SC06 | 1 | Mounting block for 6 dia., M3 × P0.5 screws: 2 pieces |
| Available soon | Y92E-SS04 | 1 | L-shaped Mounting Bracket for M4 screws |
| Available soon | Y92E-SS05 | 1 | L-shaped Mounting Bracket for M5 screws |

Nut Set (Sold separately)

| Model | Applicable sensor outer diameter | Set contents | | | |
|------------|----------------------------------|---|--|--|--|
| Y92E-NWS04 | M4 | Clamping pute: 2 pieces, teethed washer: 1 pieces | | | |
| Y92E-NWS05 | M5 | Clamping nuts: 2 pieces, toothed washer: 1 piece | | | |

Protective Stainless-steel Spiral Tube against Wire Breakage (Sold separately)

A Spiral Tube is not provided with the Sensor. It must be ordered separately as required.

[Refer to *Dimensions* on page 15.]

| Model | Applicable sensor outer diameter | Length |
|------------------------------|----------------------------------|--------|
| Available soon Y92E-STS04-05 | M4 | 0.5 m |
| Available soon Y92E-STS04-10 | IVI | 1 m |
| Available soon Y92E-STS05-05 | M5 | 0.5 m |
| Available soon Y92E-STS05-10 | | 1 m |

Sensor I/O Connector (Socket on One Cable End)

A Sensor I/O Connector is not provided with the Sensor. It must be ordered separately as required.

[Refer to *Dimensions* on page 16.]

- *1. Using within the set distance enables high-speed responsiveness and a more stable repeat accuracy.
 *2. When used at a power of 12 V, the Sensor is less susceptible to the effects of internal self heat generation and therefore a more stable repeat accuracy can be obtained.
- *3. When the control output is 20 mA or less, the Sensor is less susceptible to the effects of internal self heat generation and therefore a more stable repeat accuracy can be obtained.
- *4. Nuts: 2 pieces, toothed washer: 1 piece
- *5. 3 dia., M4: load current 50 mA, cable length 2 m 4 dia., M5: load current 100 mA, cable length 2 m 6.5 dia.: load current 200 mA, cord length 2 m
- *6. Oil resistance in-house standard: Performance with respect to water insoluble oil. (Test at right)
- *7. Material name in EN standards.

Oil resistance test

After the test time elapses, the characteristics below are checked for problems.

(1) Visual appearance (no damage that

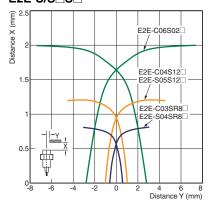

- affects product characteristics)
- (2) Operation check (ON/OFF)
- (3) Insulation resistance (50 $M\Omega$ min. at 500 VDC)
- (4) Dielectric strength (500 VAC, 1 min.) (5) Water resistance (IP67)

Sensing distance vs. repeat accuracy graphs

By using within the sensor installation distance, the repeat accuracy stabilizes.

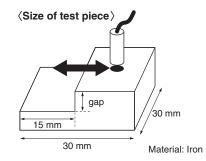

This data is reference data based on a standard sensing object, and is not a guarantee of performance.

The repeat accuracy varies depending on the effects of temperature, the material and surface condition of the sensing object, and other conditions.

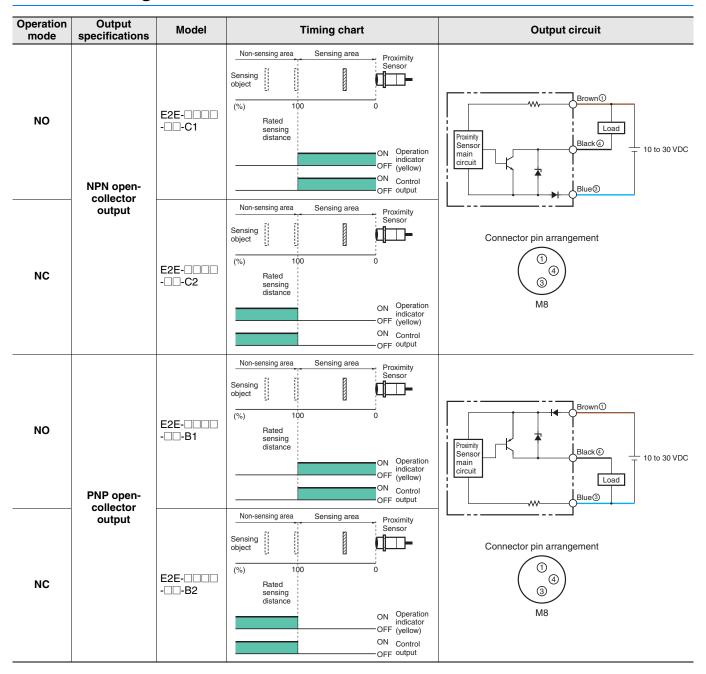

Minimum measurement gap

| Model | Minimum gap (mm) |
|---------------|------------------|
| E2E-C03S/S04S | 0.3 |
| E2E-C03N/S04N | 0.6 |
| E2E-C04S/S05S | 0.4 |
| E2E-C04N/S05N | 0.9 |
| E2E-C06S | 0.6 |
| E2E-C06N | 1.2 |

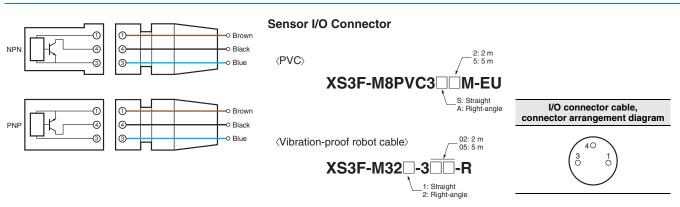

Note: Measured at constant temperature of 23°C using an iron sensing object of size at least as large as standard sensing object (see right).

Safety Precautions

Refer to Warranty and Limitations of Liability.

♠ WARNING

This product is not designed or rated for ensuring safety of persons either directly or indirectly. Do not use it for such purposes.

⚠ CAUTION

- Do not short the load. Explosion or burning may result.
- Do not supply power to the Sensor with no load, otherwise Sensor may be damaged.

Precautions for Correct Use

Do not use this product under ambient conditions that exceed the ratings.

Design

Influence of Surrounding Metal

When mounting the Sensor within a metal panel, ensure that the clearances given in the following table are maintained. Failure to maintain these distances may cause deterioration in the performance of the Sensor.

(Shielded Models)

(Unit: mm)

| Size | 0 41:- | 4 -1:- | 0.5 -41:- | N4.4 | |
|------|--------|--------|-----------|------|----|
| Item | 3 dia. | 4 dia. | 6.5 dia. | M4 | M5 |
| L | 0 | 0 | 0 | 0 | 0 |
| m | 3 | 5 | 6 | 3 | 5 |
| d | 3 | 4 | 6.5 | 4 | 5 |
| D | 0 | 0 | 0 | 0 | 0 |
| n | 8 | 10 | 12 | 8 | 10 |
| С | 0 | 0 | 2 | 0 | 0 |

(Unshielded Models)

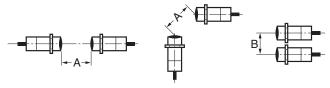

(Unit: mm)

| S | Size | 0 4!- | 4 -1!- | 0.5 -1:- | N4.4 | МЕ |
|------|------|--------|--------|----------|------|----|
| Item | | 3 dia. | 4 dia. | 6.5 dia. | M4 | M5 |
| L | | 6 | 6 | 12 | 6 | 6 |
| m | | 6 | 9 | 8 | 6 | 9 |
| d | | 9 | 12 | 24 | 9 | 12 |
| D | | 6 | 6 | 12 | 6 | 6 |
| n | | 16 | 20 | 24 | 16 | 20 |

If mounted in a surrounding non-magnetic metal such as aluminum or copper, the sensing distance may shorten by about 40 to 50%. If used in a recessed installation, take into consideration the effects of the material on the sensing distance.

Mutual Interference

When installing Sensors face-to-face or side-by-side, ensure that the minimum distances given in the following table are maintained.

Mutual Interference

(Unit: mm)

| Size | 3 dia. | | 4 (| 4 dia. | | 6.5 dia. | | M4 | | M5 | |
|------|----------|------------|----------|------------|----------|------------|----------|------------|----------|------------|--|
| Item | Shielded | Unshielded | |
| Α | 20 | 80 | 20 | 80 | 20 | 80 | 20 | 80 | 20 | 80 | |
| B * | 15 | 60 | 15 | 60 | 15 | 60 | 15 | 60 | 15 | 60 | |

^{*} Values when the connector size is not taken into consideration.

Mounting

Tightening Force

(Mounting threaded models (E2E-S□))

Do not tighten the nut with excessive force. A washer must be used with the nut.

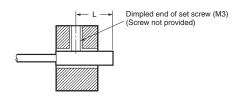

Note: 1. Only use the provided nut and toothed washer. Risk of changes in the sensing distance and damage if a different material is used. If you lose the nut or washer, purchase an optional nut set.

2. The following strengths assume washers are being used.

| Size | M | 14 | M5 | | |
|------|-----------------|------------|----------|------------|--|
| Item | Shielded | Unshielded | Shielded | Unshielded | |
| Tr | 0.8 N ⋅m | | 1 N | l·m | |

Note: Only use the provided nut.

(Mounting unthreaded cylindrical models (E2E-C□))

| Si | ze | 3 dia. | | 4 c | lia. | 6.5 dia. | | |
|--------|----|---------------|----------------|---------------|----------------|-------------|------------|--|
| Item | | Shielded | Unshielded | Shielded | Unshielded | Shielded | Unshielded | |
| L* | | 9 to 21 mm | 15 to 27 mm | 8 to 21 mm | 14 to 27 mm | 12 to 26 mm | | |
| Torque | | 0.2 N⋅m max. | | | | 0.4 N⋅ı | m max. | |

^{*} Excluding the operation indicator area.

When using a set screw, tighten it to the torque indicated in the table above.

Oil resistance

In accordance with our oil resistance standard, we test oil resistance based on water insoluble oil (complies with test oil based on JIS C0920, Appendix 1).

When water soluble cutting oil is used, durability varies due to the dilution ratio and other factors.

Please test oil resistance using the actual oil that will be used.

High-speed responsiveness

To obtain a better high-speed response, it is recommended that you use the sensor at about 50% of the possible sensing distance. A high-speed response may not be obtained with some sensing object surfaces, materials, and shapes, or when the sensing distance is greater than the set distance.

For the effects of materials, refer to Engineering Data on page 7.

• Repeated cable bending tolerance

If you require repeated bending tolerance, use the Connector Model together with a connector cable that is specified for bending tolerance. (Example: XS3F-M321-□□□-R)
Refer to Sensor I/O Connector on page 5.

Protective Stainless-steel Spiral Tube

The spiral tube is in a fixed state and is intended to provide protection against wire breakage due to shock from tools or other objects. If you require repeated bending tolerance, use the Connector Model together with a connector cable that is specified for bending tolerance. (Example: XS3F-M321-□□-R) Refer to Sensor I/O Connector on page 5.

Block type mounting accessories

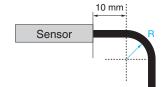

Due to differences in dimensional tolerances, these cannot be used with older small diameter proximity sensors. (E2E-CR6, E2E-CR8)

Bending radius for mounting

If the cable is bent from its base, the resin on the surface of the cable may peel off, however, this will not affect the protective structure or sensing performance.

Avoid bending the cable at less than 10 mm from the its base. When bending the cable, refer to the table below.

| Cable diameter | Bending radius |
|----------------|----------------|
| 3 dia., M4 | 7 mm |
| 4 dia., M5 | 9 mm |
| 6.5 dia. | 12 mm |

Terms and Conditions Agreement

Read and understand this catalog.

Please read and understand this catalog before purchasing the products. Please consult your OMRON representative if you have any questions or comments.

Warranties.

- (a) Exclusive Warranty. Omron's exclusive warranty is that the Products will be free from defects in materials and workmanship for a period of twelve months from the date of sale by Omron (or such other period expressed in writing by Omron). Omron disclaims all other warranties, express or implied.
- (b) Limitations. OMRON MAKES NO WARRANTY OR REPRESENTATION, EXPRESS OR IMPLIED, ABOUT NON-INFRINGEMENT, MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE OF THE PRODUCTS. BUYER ACKNOWLEDGES THAT IT ALONE HAS DETERMINED THAT THE PRODUCTS WILL SUITABLY MEET THE REQUIREMENTS OF THEIR INTENDED USE.

Omron further disclaims all warranties and responsibility of any type for claims or expenses based on infringement by the Products or otherwise of any intellectual property right. (c) Buyer Remedy. Omron's sole obligation hereunder shall be, at Omron's election, to (i) replace (in the form originally shipped with Buyer responsible for labor charges for removal or replacement thereof) the non-complying Product, (ii) repair the non-complying Product, or (iii) repay or credit Buyer an amount equal to the purchase price of the non-complying Product; provided that in no event shall Omron be responsible for warranty, repair, indemnity or any other claims or expenses regarding the Products unless Omron's analysis confirms that the Products were properly handled, stored, installed and maintained and not subject to contamination, abuse, misuse or inappropriate modification. Return of any Products by Buyer must be approved in writing by Omron before shipment. Omron Companies shall not be liable for the suitability or unsuitability or the results from the use of Products in combination with any electrical or electronic components, circuits, system assemblies or any other materials or substances or environments. Any advice, recommendations or information given orally or in writing, are not to be construed as an amendment or addition to the above warranty.

See http://www.omron.com/global/ or contact your Omron representative for published information.

Limitation on Liability; Etc.

OMRON COMPANIES SHALL NOT BE LIABLE FOR SPECIAL, INDIRECT, INCIDENTAL, OR CONSEQUENTIAL DAMAGES, LOSS OF PROFITS OR PRODUCTION OR COMMERCIAL LOSS IN ANY WAY CONNECTED WITH THE PRODUCTS, WHETHER SUCH CLAIM IS BASED IN CONTRACT, WARRANTY, NEGLIGENCE OR STRICT LIABILITY.

Further, in no event shall liability of Omron Companies exceed the individual price of the Product on which liability is asserted.

Suitability of Use.

Omron Companies shall not be responsible for conformity with any standards, codes or regulations which apply to the combination of the Product in the Buyer's application or use of the Product. At Buyer's request, Omron will provide applicable third party certification documents identifying ratings and limitations of use which apply to the Product. This information by itself is not sufficient for a complete determination of the suitability of the Product in combination with the end product, machine, system, or other application or use. Buyer shall be solely responsible for determining appropriateness of the particular Product with respect to Buyer's application, product or system. Buyer shall take application responsibility in all cases.

NEVER USE THE PRODUCT FOR AN APPLICATION INVOLVING SERIOUS RISK TO LIFE OR PROPERTY OR IN LARGE QUANTITIES WITHOUT ENSURING THAT THE SYSTEM AS A WHOLE HAS BEEN DESIGNED TO ADDRESS THE RISKS, AND THAT THE OMRON PRODUCT(S) IS PROPERLY RATED AND INSTALLED FOR THE INTENDED USE WITHIN THE OVERALL EQUIPMENT OR SYSTEM.

Programmable Products.

Omron Companies shall not be responsible for the user's programming of a programmable Product, or any consequence thereof.

Performance Data.

Data presented in Omron Company websites, catalogs and other materials is provided as a guide for the user in determining suitability and does not constitute a warranty. It may represent the result of Omron's test conditions, and the user must correlate it to actual application requirements. Actual performance is subject to the Omron's Warranty and Limitations of Liability.

Change in Specifications.

Product specifications and accessories may be changed at any time based on improvements and other reasons. It is our practice to change part numbers when published ratings or features are changed, or when significant construction changes are made. However, some specifications of the Product may be changed without any notice. When in doubt, special part numbers may be assigned to fix or establish key specifications for your application. Please consult with your Omron's representative at any time to confirm actual specifications of purchased Product.

Errors and Omissions.

Information presented by Omron Companies has been checked and is believed to be accurate; however, no responsibility is assumed for clerical, typographical or proofreading errors or omissions.
