The new B1 ceiling boxes simplify installation on the ceiling formwork. The innovative conduit entries allow the easy laying of the conduits in multiple ceiling boxes arranged in a row without the need for cutting during laying work. The higher conduit entries make additional cut-outs of the reinforcement bars unnecessary, and speeds up the fitting of empty conduits on the ceiling.

- Suitable for all types of formwork
- Flat front part makes possible the trouble-free fitting of the reinforcement bars on the ceiling formwork
- Innovative conduit entries for fast fitting on the building site
- Plenty of installation space
- Fitting of a light hook acc. to DIN EN 60670
- The tried-and-tested KAISER colour system ensures fast testing of the installation
