

CLIFF

DUST COVERS

This range of dust covers are designed to fit **CLIFF** Feedthrough connectors. There are Dedicated covers for RJ45, USB2/3-A, USB2-B, USB3-B, USB-C and HDMI. They simply push into the front of the connector to reduce ingress of dust and dirt. There is a small hole in the front to allow covers to be tied together if necessary. We also supply separate lanyards. Total of 6 models.

We also have a Universal dust cover which fits over the front of most feedthrough connectors. (except ST/ Fibre). It will also fit our Cliffcon sockets and various XLR connectors (non latching)

Both types fit our plastic and metal feedthroughs. Standard colour is Black. Custom colours subject to viable quantity.

Part No.
