NORTES LED 5W, mirror lamp, 320lm, 4000K, 30 cm long, plastic, black

NORTES LED lamp for illuminating mirrors, showcases, paintings or other elements that we would like to display with light. The lampshade, made of plastic, has a long, flat shape, thanks to which it ensures even illumination of a given surface. The simple and elegant form of this luminaire will make the lamp look good both in a modern bathroom and in interiors full of classic furniture, in which there are items worth special distinction with light. The light source in this product has a form of SMD LEDs that emit light with a natural white color. Despite low energy consumption of 5W, the luminous flux of the emitted light is high and equals to 320lm. The IP44 ingress protection class guarantees sufficient protection against dust and water splashing from any angle. Thanks to this the lamp is a safe solution for installation in the bathroom and other rooms with increased humidity. This type of lighting has been designed in a way that allows 4 methods of installation - in a display case, above the mirror and 2 different ways to mount it on the wall. The product is made of plastic in black color. The length of the luminaire is 30 cm.

Rated power:
5W

Colour temperature:
4000K

Type of switch:
on/off

Other features:
4 methods of instalation

General information

Light source: LED SMD

Rated power: 5 W

Nominal voltage: 230V~, 50Hz

Luminous flux: 320 lm

Material: plastic

Colour: black mat

Motion sensor: no

Installation: surface mounting

Colour temperature: 4000K

Degree of protection (IP): 44

Colour rendering index CRI: >80

Type of switch: on/off

Dimensions - depth: 42 mm

Dimensions - height: 105 mm

Other features: 4 methods of instalation
