

Car FM Transmitter | Gooseneck | Hands free calling | 2.0 " | LED Screen | Bluetooth® | USB charging | Fast charging |

General information

Fed up with the car radio? You can enjoy your own playlists while driving with this Nedis® Bluetooth® 5.0 FM transmitter. With this device you can play music from smartphones or tablets through your car radio.

The innovative Bass Boost functionality delivers a deeper bass with the touch of the button.

But this transmitter is smarter than that: it can also charge two devices simultaneously. It has a 3.0 A connection that gives full-speed charging for USB devices and a second 2.4 A USB connection which enables devices to charge faster at higher voltages.

The built-in microphone and the voice control function enables hands-free calling for safe driving. The flexible neck helps you position the large 2" LED display perfectly.

Features

- Connects to any Bluetooth® device - to wirelessly connect to your car radio
- Bluetooth® 5.0 - for less interruption and faster speeds
- Bass Boost function - to deliver a deeper bass when needed
- Voice control - for safer driving you can control your device with your voice
- Integrated microphone - to make hands-free calls
- Two USB ports - for charging two USB devices simultaneously with a 3.0 A and 2.4 A connection.
- MicroSD port - to enjoy your own playlists
- 3.5 mm output connection - for easy connection with a wired device
- Flexible neck - to position the transmitter perfectly
- Large LED display - to quickly see the information you need
