

DVB-T/T2 Outdoor Antenna 15 dB VHF / UHF

General information

This universal in and outdoor antenna is suitable for all DVB-T and DVB-T2 receivers to receive digital terrestrial TV broadcasts in Europe. In order to reduce the impact of LTE introduction (4G) on the 800-MHz band, a low pass filter is used in this product related to the removed RF frequencies (790 - 862 MHz, channels 61 - 69).

Features

- For both outdoor and indoor use
- LTE filter to reduce the impact of 4G on the 800-MHz band

Specifications

Frequency range:	174-790 MHz
Impedance:	75 Ohm
Gain:	15 dB
Noise figure:	4 dB
Colour:	Grey
Type:	Passive
Application:	DVB-T/T2
Usage:	Indoor and Outdoor
Connector type:	F-connector
Signal type:	VHF
Signal type:	UHF
Input voltage:	DC 5 V
Feature:	LTE Filter
